Signature – Hui Chin Barnhill

NOTICE OF PREMATURE PUBLICATION

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Sir:

Applicants submit this paper to bring to the attention of the Patent Office the premature publication of this application. The publication appears to have occurred based on the mistaken belief that this application is a continuing application of a prior U.S. patent application. This is, in fact, not the case.

Applicants hereby advise the Commissioner that the above-referenced patent application is *not* a continuation-in-part of a prior application. This error apparently occurred due to a minor typographical (copy and paste) error embodied in the transmittal sheet of this application, in which the application was indicated as being a continuing application. However, as is clear from the specification (which does not include any claim for domestic priority) and the Declaration (which also lacks any claim of domestic priority), this application is not a continuing application of the prior U.S. application, as reflected in the Filing Receipt.

Applicants file this paper merely to bring this matter to the attention of the Patent Office.

Respectfully submitted ,

**THOMAS, KAYDEN, HORSTEMEYER
& RISLEY, L.L.P.**
